

2024 Utah First Credit Union Board of Directors Candidate Statements

Ted Boyer

Credit unions provide a competitive alternative to conventional banks. Utah First Federal Credit Union provides an excellent selection of products and services together with an

exceptional and personal level of service quality and favorable rates. Utah First is a very well-run institution and has been recognized nationally for the last several years. An important part of the Board of Director's responsibilities is to work with senior management to assure that services to individual and business credit union members together with sound financial practices remain our top priorities.

Having served on the board for several years, I believe I continue to add value to this institution. In addition to BS and MS degrees from BYU, and a law degree from the U of U, I have taken local and national credit union training. While practicing law, I represented financial institutions and other business entities. I have previously served as the agency head for the Utah Division of Real Estate and the Utah Department of Commerce in addition to serving as Chairman of the Utah Public Service Commission. I have been responsible for multi-million-dollar annual budgets, human resources, customer service and other functions. That experience has enabled me to provide counsel and advice to the Board of Directors and senior management during these uncertain and changing economic times.

I have the experience, the time, and the desire to serve on the Board of Directors. If elected for another term, I will look forward to continued service to this great institution.

Thank you for your support.

Dave Pendleton

As a member of Utah First for more than 30 years and a member of the Board of Directors for 25 years, I am honored to be nominated to serve another term. Currently, I represent you as Chairman of the Board.

It is a privilege to be affiliated with Utah First, a nationally recognized top 100 credit union for efficiency and growth. As members of Utah First, we all enjoy the benefits and peace of mind of being associated with a financial institution whose mission is to be significant in the lives of its members. As director, I will continue this focus.

By profession, I work with financial services technologies used to improve credit union processes and delivery of products and services to credit union members. I believe this background gives me unique insight into the opportunities and challenges facing credit unions and the financial services industry.

Thank you for your consideration and support as I seek re-election.
